THE 15TH ANNUAL UNBOUGHT & UNBOSSSED AWARDS
ARE PRESENTED BY

NOVATECH

THE PROGRAM BEHIND THE EVENT: WOMEN'S HISTORY PROJECT

Named for the phrase coined by former U.S. Representative Shirley Chisholm, the UnBought and UnBossed Awards honor women who, through their career achievements and community involvement, have impacted the lives of women and girls. Shirley Chisholm broke through societal barriers and opened doors for other women as the first black woman elected to Congress and the first woman ever to run for the Democratic presidential nomination.

This annual event is one component of a larger Girls Inc. program: the Women's History Project. The companion after school program educates high school girls about the strong, smart, and bold women who have impacted our nation, including women in our very own community. High school girls study women's history and leadership traits in preparation for selecting the "UnBought and UnBossed" honorees. These women have been nominated by community members and are chosen as mentors by these Girls Inc. girls. Personal and identifying information is removed so that girls choose their honorees based solely on merit.

After selecting an honoree who inspires her, each girl researches, creates and delivers a presentation about her chosen mentor at the annual UnBought and UnBossed Awards. This process helps girls refine their interview, research, and public speaking skills. Many girls develop relationships with their honorees that continue past the program's completion, just one of the many benefits of being a Girls Inc. girl.

To find out how to get your teen involved, visit www.girlsincofchatt.org, or email Toccora Johnson at tjohnson@girlsincofchatt.org
